

These seminars are designed to give house officers (interns and residents) and graduate students an opportunity to present their research or a specific medical topic (can be based on a research project, review of a disease, treatments etc) in depth.

The seminars aim to give an in-depth presentation to current topics pertinent to different fields of veterinary anesthesia.

8.00-8.05am introduction of the presentations, weekly housekeeping

8.05-8.25am Dr. Hugo Gonzalez-Jassi: "Pharmacokinetics of Extended-Release Liposomal Formulation of Buprenorphine in Hispaniolan Amazon Parrots (*Amazona ventralis*) and its effects on Body Temperature After a Single Subcutaneous Administration"

8.25-8.30 Q&A for first presentation

8.30 – 8.50 Dr. Joseph Preston: "Take the UM out of treating Pythium"

8.50-8.55 Q&A for second presentation

8.55 – 9.00am closing comments, and announcement for next week
