

### ***1 Hour - "Prescribing Antibiotics in Practice: Don't Join the Resistance"***

This live interactive medical program for veterinary professionals will review appropriate antibiotic therapy, classes, and mechanism of action. In addition, this program will provide an overview on when (and what) to prescribe plus the duration of treatment.

Presented by:

***Mallory Horridge, DVM, Diplomate, ACVECC***

Mallory Horridge, DVM, Diplomate, ACVECC, is a Board-certified Specialist in Veterinary Emergency & [Critical Care](#) at [MedVet Mandeville](#), where she has been a part of the team since 2023.

She earned a Bachelor of Science degree in Biological Sciences from the University of Southern Mississippi. She then earned a Doctor of Veterinary Medicine degree from Mississippi State University. Following earning her veterinary degree, Dr. Horridge completed a small animal rotating internship at the University of Missouri and an emergency and critical care residency at Cornell University Veterinary Specialists.

### ***1 Hour - "Papillomas on the Rise"***

Discuss clinical signs, diagnostics and treatment for papilloma virus lesions

Presented by:

***Stephen Lemarie, DVM, MS, Diplomate, ACVD***

Stephen is a Board Certified Veterinary Dermatologist at MedVet. He has been part of the medical team since 2015. Dr. Lemarie attended Louisiana Tech University where he earned a Bachelor of Science degree and Louisiana State University School of Veterinary Medicine where he earned a Masters of Science and a Doctor of Veterinary Medicine degree. Following his graduation from veterinary school, Dr. Lemarie worked in a busy mixed animal practice prior to completing a three-year residency in small animal dermatology at the Louisiana State University School of Veterinary Medicine.

Dr. Lemarie is experienced in all aspects of small animal dermatology with particular interests in allergic, auto immune, infectious and parasitic diseases of the skin. He also has an interest in the diagnosis and treatment of diseases of the ear. He was one of the first veterinary dermatologists in the country to utilize the Rush Immunotherapy Technique in dogs and cats with atopic dermatitis (allergies). Dr. Lemarie enjoys establishing long term relationships with his patients and their owners.
