

Program Provider:

MedVet

Program Date:

Thursday, March 25, 2026
6-7pm CT

Program Title and Credit Requested:

The Art of Triage: Defining the Critical First Steps
1.0 credit hour

Program Description:

This in-person medical program for veterinary technicians will review how to choose the proper tools for patient prioritization, rapid assessment utilizing the ABC method, and the presentation of common veterinary emergencies. In addition, this course will include the steps beyond triage, stabilization, plus ethical considerations.

Agenda/Outline:

- Introduction
- Triage systems: choosing the right tools for prioritization;
- The primary survey: rapid assessment with the ABC method;
- Recognizing the red flags: common veterinary emergencies and what they look like;
- Beyond triage: teamwork, stabilization, and ethical considerations
- Q&A

Learning Objectives:

- #1: How to choose proper tools for patient prioritization.
- #2: How to follow the primary survey.
- #3: How to recognize the red flags.

Presenter:

Passion Alves, RVT
