

**Program Provider:**

MedVet

**Program Date:**

Mon., May 25, 2026  
3-4pm CT

**Program Title and Credit Requested:**

*A Technician's Guide to Feline Hepatic Lipidosis*  
1.0 credit hour

**Program Description:**

This live interactive medical program for veterinary professionals will provide a comprehensive review of feline hepatic lipidosis. This course will review clinical presentation, diagnostics, treatment options, and hospitalization and home care strategies to optimize outcomes in affected patients.

**Agenda/Outline:**

- Introduction
- Symptoms & clinical presentations
- Diagnostics
- In-hospital treatment
- Post-hospitalization home care
- Q&A

**Learning Objectives:**

#1: Recognize the symptoms and clinical presentation of feline hepatic lipidosis.

#2: Apply appropriate diagnostics to confirm feline hepatic lipidosis and guide treatment decisions.

#3: Implement treatment protocols, hospitalization care, and home care recommendations for feline hepatic lipidosis patients.

**Presenter:**

Christopher Wallsmith, RVT
