

Webinar title: Mosquito Control Post Hurricanes

Date: Wednesday, July 1, 2026

Time: 2:00-3:30 PM (CDT)

Speaker: Janet McAllister, PhD

Principal Research Entomologist, Mosquito Division, with the New Orleans Mosquito, Termite and Rodent Control Board

This webinar is part of a public health education series on emergency preparedness, however, not all webinars in this series will seek CE with the Louisiana Board of Veterinary Medicine.

This webinar will cover some basic emergency response terms and where to get training to understand how responses are structured. The different federal agencies that are responsible for outbreaks and environmental emergencies and how they engage with states will be outlined. Records keeping for planning and reimbursement of control activities will be covered. Finally, descriptions of what mosquito control programs encounter after environmental emergencies such as hurricanes and floods, and how they might need to operate will be presented.
